

PROTECT LIFE PRESERVES PROPERTY PEACE OF MIND

SAFE HAVEN DEFENSE OFFERS THE **BULLET-RESISTANT GLASS LAMINATE** THAT YOUR PROPERTY NEEDS.

No one ever knows when disaster will strike. Whether it's a burglary, home invasion, random shooting, rioting, or severe weather conditions, you need industry standard window protection that you can trust. Safe Haven Defense is here for you! Our safe haven defense glass laminate is designed for any business, company, home or location that needs **state-of-the-art glass laminate protection, including Federal and state buildings, Civic Buildings, Schools, Religious institutions, police protection and auto protection.**

WHAT WE OFFER

Our #UPARMOR protection is unlike anything else on the market for property security. Safe Haven Defense Glass Laminate is a company dedicated to providing industry leading technology to harden your building and empower your people. We manufacture, sell and install our own bullet, burn, blast, chemical and burglar resistant products which include laminates, glass and panels.

Our 3rd party tested products, applied to your existing glass or walls, can help deter burglars like no other product; while giving you bullet resistant protection, all at a fraction of the price of our competitors.

SAFE HAVEN DEFENSE

YOU CAN SHOOT OUT, BUT THEY CAN'T SHOOT IN

DEFENSE PRODUCTS

SMASH RESISTANCE

Smash resistant laminates were once items only available for a special circumstances and not frequently used in average home. Safe Haven Defenses smash resistant laminate is a perfect fit, that provides quick and easy installations.

KEVLAR PANELING

Our UpArmored Vehicle Packages are completely custom tailored to you. Whether you are looking for merely burglar/ carjacking protection, or complete bullet resistant packages, we have something for you with our car and truck armor panels.

BULLET RESISTANT

Our Solar Control & Bullet Resistant Security Laminate, available in frost and tint, offers our highest level of protection against the most severe impact threats, such as those from bombs, severe weather, and shootings.

RIOT CONTROL

Our Riot Control Laminate, available in frost and tint, is designed for superior protection from numerous threats, including forced entry, severe weather, blasts, and gun fire.

SMASH RESISTANT LAMINATE FOR YOUR STRUCTURE

Safe Haven Defense continues to evolve and improve in construction technology. These products are becoming more available for businesses, organizations, and homeowners. Smash resistant laminates were once items only available for a special circumstances and not frequently used in average home. Our laminate reduces UV radiation, and improves energy efficiency. Safe Haven Defenses smash resistant laminate is a perfect fit, that provides quick and easy installations.

WHAT IS SMASH RESISTANT LAMINATE?

If hit, rather than breaking into jagged sharp pieces, the glass will crack like a spider web, but the glass won't break through.

STOP EVERYTHING

FROM THE COMMON THEFT TO THE ACTIVE SHOOTER

BENEFITS OF SMASH RESISTANT GLASS

With this Laminate, instead of the glass shattering it holds together and a more efficient barrier is formed. Burglars are more likely to go away in search of an easier target, especially if your smash resistant glass is fitted with an alarm system. Intruders will not have the time to stay longer to access your home or establishment

It's time for Peace of Mind. Compared to our competition we offer significant cost savings without having to close the doors while we install.

SMASH RESISTANT LAMINATE IS VIRTUALLY INVISIBLE

One of the primary benefits of our smash resistant laminate is the clarity; meaning you don't have to sacrifice curb appeal. Using gates and bars to secure business windows may not be appealing, and using storm shutters can feel claustrophobic and unattractive. Laminated glass, on the contrary, is virtually invisible.

SMASH RESISTANT LAMINATE REDUCES SOUND TRANSMISSION

The thermoplastic layer of stratified security glass aids in blocking out the sound from outside. In the event you have a business in a noisy part of town, it is advisable to use our smash resistant laminate. This reduces sound transmission and makes your commercial property or home more peaceful and quiet. When you install our smash resistant laminate throughout the whole property, a significant reduction in noise will be noticed.

PROVIDES UV PROTECTION

As time passes things such as furniture, carpet, upholstery, photos, or anything near your ordinary glass windows are always fading. This is due to sun exposure. Our smash resistant laminate helps reduce harmful UV rays that are likely to cause fading. Smash resistant glass can minimize glare as it is available in colored, mirrored, and tinted models in case you may want privacy.
